## FEATURES Multifuser DC2

Multifuser DC2 is a bi-dimensional diffusion panel that is frequently applied to walls or ceilings, providing multi-reflection on both vertical and horizontal planes in sound critical spaces. It performs on high frequencies, brightening and clarifying sound. Made from high density quality EPS ( Expanded Polystyrene ), Multifuser DC2 is notable not only for its effective performance in solving problems like lack of speech intelligibility or music definition, but also for its attractive design that fits perfectly in any kind of room.

- High efficiency - 2 dimensional primitive root diffuser top surface angle.- Easy to install
- Can be painted with water-based paints
- 6 units per box
